

TECHNOLOGY & SERVICES UPDATE

May 2015

THE UTILITY SERVICE PROVIDER OF CHOICE

Since 1933 Heath Consultants Incorporated has been recognized as the premier “world class” provider of services to the utility protection market. Heath’s qualified and experienced management team provides strong direction that focuses on customer service and satisfaction. We have an excellent track record with utilities throughout the United States and abroad. Our extensive experience, local presence and dedicated regional recruiters allow us to meet project coordination, scheduling needs and staffing requirements. Currently, Heath employs approximately 1,200 people in the United States who specialize in utility protection services.
