

# TECHNOLOGY & SERVICES UPDATE

Heath Consultants Incorporated is pleased to announce our subsidiary Norton Corrosion Limited, LLC a full service corrosion control services company specializing in cathodic protection received national certification as a Women's Business Enterprise by the Astra Women's Business Alliance Certification Committee, a regional certifying partner of the Women's Business Enterprise National Council (WBENC).

WBENC's national standard of certification implemented by Astra Women's Business Alliance Certification Committee is a meticulous process including an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51% owned, operated and controlled by a woman or women.

Norton is an industry leader in providing practical solutions and technical excellence in corrosion engineering, materials, and construction services. Whether your project requires all these areas to be addressed or just one, you will benefit significantly from Norton's extensive experience with all aspects of corrosion work.

## Inspection Services

Norton Corrosion Limited, LLC (Norton) offers several services and products to suite all your corrosion inspection, engineering, design and material needs. Our comprehensive inspection services for cathodic protection systems and corrosion mitigation projects are performed by NACE International certified corrosion professionals and include CP Testing, AC/DC Mitigation, Close Interval Surveys (CIS), plus more!

## Engineering

We have provided Cathodic Protection (CP) and corrosion engineering services for municipalities, government agencies and facilities/asset owners around the world. Our projects include offshore platforms, pipelines, bridges and more. Contact us for engineering services in these areas: CP plans and specifications, feasibility studies, corrosion studies, third party oversight, condition assessments and many others.

## Materials

Norton is your complete source for both impressed current and galvanic CP materials. We manufacture and supply a variety of CP items. Our Bayanode® probe anodes, Morganode® marine anodes and high yield anode sleds are recognized as industry leaders. These products have been installed in some of the harshest saltwater environments around the world. In addition, Norton's water tank anode system meets NSF 61 criteria.

## Construction

Norton offers a highly skilled and experienced construction team. Safety and on time installations are paramount to our projects. Our construction personnel receive extensive safety, security and operator qualification (OC) training. Norton has been issued credentials from CSTOP, ICC, NCCER, RAPIDGate®, and TWIC®. We also participate with such organizations as ISNetworld®, PIC®, and NCMS®.
