## TECHNOLOGY & SERVICES UPDATE

May 2019

### Thanks To All Those Who Stopped By Our Booth at AGA. Sorry If We Missed You!

Heath booth featuring Music City theme and our latest products and services.

Presentation of Milton Heath Sr. Memorial Award.

Joshua Denham, showing off his door prize winning, a Yamaha Dreadnought Guitar.

Heath Consultants Incorporated attended the American Gas Association (AGA) in Nashville, TN. The conference is the natural gas industry's premier gathering of natural gas utility and transmission company operations management from across North America and the world for the sharing of technical knowledge, ideas and practices.

Our exhibit booth complimented the theme of "Music City" with a guitar imprinted carpet and live musical entertainment!

Heath proudly displayed a Jeep outfitted with the ABB MobileGuard™, Optical Methane Detector (OMD™) and the pump drawn Mobile Sampling system for the DP-IR™. Also on display was the new RMLD-CS™ (Complete Solution), DP-IR Trainer™, RMLD-UAV™ and the RMLD-REM™. We had representatives from Heath sales, executives, operations and partners from 3M/Gas Measurement Instruments (GMI) with the 700 Gasurveyor Series and the PS-200.

The week was filled with meetings, awards and honors for employees, valued Heath customers and associates.

On Wednesday morning honors were bestowed upon Sir George Lomax, a retired 45+ year employee of Heath as he was "knighted" in a rare ceremony by the Gild of Ancient Suppliers.

During the general session, the Milton Heath Sr. Memorial Award was presented to Jason Samara of Enbridge Gas for his outstanding contributions in the areas of leak detection, prevention or repair.

To further tie in the Music City theme we held a door prize drawing for a Yamaha Dreadnought Guitar on the last day of the exhibits. Joshua Denham with Chesapeake Utilities was our lucky winner that day!
