

THE FEATURE PACKED, FIELD PROVEN GASURVEYOR 700 SERIES

The Gasurveyor 700 (GS700) utilizes the latest infrared gas detection technology in a robust and reliable design. Its highly configurable design, outstanding performance and user-friendly interface make it the perfect choice for all gas utility applications.

Flexible Configuration

The GS700 can be configured to meet specific application needs and can be customized to suit a range of user settings and languages.

Ensuring Compliance

Intelligent data-logging functionality together with optional GPS mapping simplifies data gathering. The cloud based Instrument Management System (IMS) improves fleet management by providing access to field usage reports, calibration history, investigation mapping and many other bespoke reports; making it easier for our customers to demonstrate compliance.

Natural Gas Discrimination

Quickly determines the source of gas leaks, whether it's pipeline gas or naturally occurring biogas; saving valuable time and reducing detection related costs.

Application Modes:

- Gas leak outdoors
- Pipeline gas test
- Purge
- Search
- Barhole
- Confined space

Features:

- LEL & Volume Gas (infrared)
- Optional sensors including: PPM, O₂, CO, H₂S
- Barhole mode - configurable
- Soft-key operation
- Communication: IrDA & optional Bluetooth
- 360° Alarms
- Lightweight and rugged
- Ingress protection - IP55
- Alkaline or rechargeable battery options
