

Your Safety...Our Commitment

To Our Customers,

I want to take a moment and let you know how Heath is responding to the coronavirus (COVID-19) outbreak.

First and foremost, Heath's number one priority is the safety and well-being of our employees, customers, suppliers, families and the communities in which we live and work.

We have established a team to monitor and assess communications from the World Health Organization ([WHO](#)), U.S. Centers for Disease Control and Prevention ([CDC](#)) and local authorities. This team will guide our actions in responding to the spread of the illness and maintaining business continuity.

Currently, there is minimal impact to our operations. We are actively communicating with our employees and providing them with updates to ensure their safety, while continuing to meet our obligations to you. As conditions evolve, we will provide further communications.

As we navigate this time of uncertainty together, I want to reaffirm Heath's commitment to safety and you. For any questions or concerns, please contact us directly at info@heathus.com.

Regards,
Drew Sitgreaves
Chief Executive Officer
Heath Consultants Incorporated
