

## LAYERED APPROACH TO LEAK SURVEY

[WATCH VIDEO](#)

# Leak Detection From Wellhead To Burner Tip

Heath Consultants Incorporated has been involved in the Natural Gas Leak Detection business for over 89 years. Through these years we have been instrumental in the development of revolutionary technologies and field services for public safety and the protection of life and property around the World.

We've come a long way from our humble beginnings to where we are today in protecting our planet with respect to atmospheric releases of natural gas (methane), which we recognize as a contributor to climate change.

Take the time to view our video animation to see how we view the future of leak survey and its connection to our Leak Survey Analytics (LSA) software suite.
