Introducing the ODORATOR 2™ - Odorization Survey Audit System

OdorSeer Software

Breadcrumb Trail

Heath is proud to introduce to market our latest innovation in odor level test instrumentation - the ODORATOR 2.

The Heath ODORATOR 2 offers the latest state-of-the-art technology in a handheld, portable, electronic, GNSS based audit system. This instrument is used to evaluate and record the odor levels within a utility's gas stream with respect to actual test locations. Natural gas (methane) and propane are two common gases typically odorized and distributed for consumption.

Features include:

- Automatic recording of all readings and GPS locations
- Automatic reading correction (linearity, elevation, pressure and temperature)
- Advanced PC software for mapping, reporting and management
- Certified for safe use in class 1, div 2 locations (pending)
- Replaceable, rechargeable li ion battery pack for long run-time

Follow Heath on Facebook and LinkedIn. You will find company updates, Human Resources notifications, employee kudos, industry related news and more.
