MAKE SAFETY #1

ODORATOR 2™ - Odorization Survey Audit System

OdorSeer Software

Breadcrumb Trail

The Heath **ODORATOR 2™** offers the latest state-of-the-art technology in a handheld, portable, electronic, GNSS based audit system. This instrument is used to evaluate and record the odor levels within a utility’s gas stream with respect to actual test locations. Natural gas (methane) and propane are two common gases typically odorized and distributed for consumption.

Features include:

- One touch zero with flow check
- Automatic recording of all readings and locations
- Automatic reading correction (linearity, elevation, pressure and temperature)
- Dual GNSS constellations – GPS and GLONASS
- Ease of integration with corporate GIS and asset management systems
- Certified to Class 1, Div 2 for safe use in hazardous locations (pending)
- Advanced PC software for mapping, report generation and management
- Replaceable, rechargeable Li Ion battery pack for long run-time
- USB 2 and Bluetooth connectivity
- Rugged design, reliable and easy to use
