

ODOR BUSTER

Instant Odor Control

Non-Toxic, Non-Acidic, Non-Alkali Odor Buster is an all purpose chemical - bacterial blend with excellent water degrading and odor control capabilities. It contains surfactants that remove much of the organic matter like any other cleaner-odor neutralizers. However, unlike any other type of products the bacterial organisms remain behind after the cleaning procedure is finished. Odor Buster completely eliminates trace odor and stain causing organics which are the root source of odors. In addition to being extremely effective Odor Buster is safe to use and contains no environmentally harmful chemicals.

ORDERING DETAILS

HPN 77R20-0005 1 gallon bottle

Your Safety...Our Commitment

9030 Monroe Road, Houston, TX 77061
www.heathus.com PH:713.844.1300

Recommended Uses

For natural gas odorant (mercaptan) application. Apply directly to contaminated parts or spilled liquids. Use for decommissioning retired storage tanks. Use full strength or diluted.

Other Uses

Carpet and fabric care, tile and concrete floors and surfaces where food spills are common (not to be used in food processing areas), refuse collection areas, urinals, toilets, bath tubs, showers stalls, rest rooms floors and surfaces, hospitals and nursing homes, public housing and shelters.

Directions

Odor Buster may be used full strength when directly applied to stains or it can be applied by fan spray or high pressure spray diluted 4 to 6 ounces per gallon of water in spray units. For mechanized carpet cleaning equipment, use 2 ounces of Odor Buster per machine sump charge.

Caution

AVOID CONTACT WITH EYES, SKIN AND CLOTHING. WASH THOROUGHLY AFTER HANDLING. KEEP CONTAINER TIGHTLY SEALED WHEN NOT IN USE. USE IN ADEQUATE VENTILATION.

Precautions

Before using, read Material Safety Data Sheet (MSDS) for this material. For small spills, soak up with absorbent material and place in properly labeled containers for disposal. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Wear chemical resistant gloves such as rubber, neoprene or vinyl. Wear safety glasses with side shields or chemical safety goggles.

First Aid (Eyes)

IMMEDIATELY flush eyes with a directed stream of water for at least 15 minutes, forcibly holding eyelids apart to ensure complete irrigation of all eye and lid tissue. GET MEDICAL ATTENTION.

First Aid (Skin)

Wash thoroughly with soap and water. Wash clothing before reuse. IF IRRITATION PERSISTS GET MEDICAL ATTENTION.

First Aid (Ingestion)

DO NOT induce vomiting unless directed by a physician. Contact poison control center.

In Case of Spill or Leak

Absorb in dry, inert material (sand, clay, sawdust).
