## Don't miss this end of year promotion!

For over 20 years, Heath's RMLD technology has been the industry leader in remote methane detection. With the RMLD-CS we took the original concept and made it even better by combining the receiver and transceiver into a lightweight, portable package that can handle a wide range of environmental conditions and applications. Whether you're in the gas industry, landfill management, or any other field that requires accurate methane detection, the RMLD-CS is the ultimate solution. Don't settle for less when it comes to your safety and compliance needs. Choose the RMLD-CS from Heath and experience the best in methane detection technology.
